Does China have a lithium-ion battery supply chain?

China has long controlled the supply and manufacture of lithium-ion batteries. The country's grip on that supply chain began to loosen after automakers, hesitant to repeat the chip shortage crisis that hampered manufacturing during the pandemic, began promising to build EVs and batteries closer to home in 2021.

Where can I find U.S. Battery Mfg.?

U.S. Battery Mfg. Co. can be found at stand 03.108. They look forward to speaking with you at #Interclean2024.

Will Tesla refine its own lithium?

In May 2023, Tesla broke ground on a Texas lithium refinery, making it one of the only U.S. automakers to refine its own lithium. The automaker said it would spend \$375 million on the Corpus Christi factory that will have a capacity of 50 GWh, with production slated to begin in 2025.
