Solar Generator Australian Buyers" Guide. ... A 1000 watt solar generator will run fridges, CPAP machines, laptops, phones, etc. You could potentially charge your phone once a day ...

We have serious doubts that a 3000-watt generator would provide enough power to run a central AC unit. We would rather go for a very small emergency window AC unit as 3,000-watt generators may have too little starting power. However, the answer to this question really depends on the number of running and starting watts your AC unit requires.

Some of the common usages of a 3000-watt solar generator include: Home Appliances . A 3000W solar generator can power a large variety of essential home appliances, like televisions, refrigerator, air conditioners, fans, lights, microwaves, CPAP, sump pump and blenders.
