

Is Kazakhstan a good supplier of lithium?

Kazakhstan is positioning itself as a significant global supplier of high-quality lithium, essential for the burgeoning power-storage technology industry, as demand for the mineral continues to surge. Recent discoveries in eastern Kazakhstan have bolstered this position, although concrete investment commitments are still limited.

Which German companies are developing a lithium project in Kazakhstan?

Knauf Gruppe, GP Günter Papenburg AG and Roxtec, leading German companies, have established a consortium in order to explore and produce lithium in Kazakhstan, according to the Ministry of Industry and Construction of the Republic of Kazakhstan. German Institute for Technologies and Economics of Lithium (ITEL) will also take part in the project.

What is Kazakhstan's lithium potential?

Researchers from the Korea Institute of Geoscience and Mineral Resources revealed substantial lithium reserves in the Bakennoye deposit, signaling a potential value of up to \$15.7 billion. Plans for further drilling investigations are underway, indicating growing interest in Kazakhstan's lithium potential.

What is going on with Kazakhstani lithium reserves?

The consortium participants have already established a working group that is expected to review the potential of Kazakhstani lithium reserves. In June 2023, HMS Bergbau AG, another German company, agreed to cooperate with Kazakhstan's Creada Corporation and allocate \$200 million in investments for lithium exploration in the country.

Which project will boost Kazakhstan's oil production in 2024-25?

Tengiz: Future Growth Project is main source of Kazakhstan's incremental oil production during 2024-25. Kashagan: Phase 2 development is likely to lift project output through 2030s, cushioning overall national production decline trajectory.
