If you're getting few results, try a more general search term.

Senjski Rudnik, established in 1853, is Serbia's oldest active brown coal mine and the oldest preserved industrial heritage site. Located in eastern Serbia, 150 km southeast of Belgrade, this small town is surrounded by the most southern slopes of...

Average per capita GDP in Luxembourg is 5x of that of China. An average European consumes 4-5x more energy than average Chinese person, and it's probably higher for Luxembourg as it's one of the richest cities in Europe. The same energy will impact 5-8x more people in China as per capita energy consumption is much lower in China.

A US tech company has announced the launch of the AP300, a nuclear reactor, in an effort to extend access to
