

Which countries install solar panels in Luxembourg?

France, Germany, Luxembourg, ... Belgium, France, Luxembourg, ... List of Luxembourg solar panel installers - showing companies in Luxembourg that undertake solar panel installation, including rooftop and standalone solar systems.

How do solar panels work in Luxembourg?

In Luxembourg, the main model is that of self-consumption with sale of surplus. To put it plainly: owners of solar panels consume the energy produced by their panels directly. If there is any electricity left over, it is sold back to the grid at a rate set by the government. This system has a number of advantages:

How can Luxembourg encourage the adoption of solar energy?

To encourage the adoption of solar energy, the Luxembourg government has set up a range of grants and subsidies that make the installation of solar panels even more attractive. The programme Klimabonus offers to reimburse up to 62.5% of the cost of the photovoltaic installation for self-consumption contracts.
