

Does Luxembourg pay for solar panels?

In Luxembourg, many financial incentives offer to reimburse the cost of installing solar panels. What's more, you can opt to consume the energy produced by your panels yourself, and thus reduce your energy bill. How do you install panels on your roof? How does the installation work? What assistance is available in Luxembourg?

Where to install solar panels in Luxembourg?

Ideally, choose a company "Made in Luxembourg" and approved by the Klima agency to install your solar panels. We work with the most serious and reputable companies in Luxembourg for the installation of solar panels. If you would like a quote for your project, request a free quote.

How can Luxembourg encourage the adoption of solar energy?

To encourage the adoption of solar energy, the Luxembourg government has set up a range of grants and subsidies that make the installation of solar panels even more attractive. The programme Klimabonus offers to reimburse up to 62.5% of the cost of the photovoltaic installation for self-consumption contracts.

Who is solarcells?

SolarCells is the first producer of photovoltaic panels in Luxembourg, located in Hollerich. We manufacture high-quality panels using European components, certified with IEC standards, offering yields exceeding 400 Wc.

What are the different types of solar panels?

Solar panels come in two main types: monocrystalline and polycrystalline. Monocrystalline panels are renowned for their high energy efficiency and aesthetic appeal, and are made up of cells manufactured from a single silicon crystal. This uniformity gives better performance, but at a generally higher cost.
