

Malawi sun spark solar

Where is Malawi's first solar power plant located?

The centrally located facility is Malawi's first solar power plant connected to the national grid, a project successfully completed under a public-private partnership (PPP). The President of the Republic of Malawi Lazarus McCarthy Chakwera visited the Salima district, 101 km from the capital Lilongwe, on November 16, 2021.

Are solar panels affordable in Malawi?

A man welding a frame to mount solar panels in Malawi. The reduced cost of solar electricity has made electricity access affordable even to low-income households.

How much solar power does Malawi have?

Malawi has 336MW on-grid hydropower capacity, but it is run-of-river with little storage and highly seasonal, making it difficult to use to manage any drops in solar generation. Escom is having to learn quickly how to manage solar power on the grid.

Is Malawi a good place to invest in solar energy?

"Salima Solar is the first solar PV plant in Malawi to be connected to the national grid. As such, it is a model for future projects in several ways... In particular, it demonstrates that Malawi is an attractive destination for private sector investment in energy," says President Lazarus McCarthy Chakwera at the plant's inauguration ceremony.

Is Malawi ready for a big Hydropower Project?

Several more projects are set to follow, but Malawi is now approaching solar saturation and ready to move on to larger hydropower plants like the 350MW Mpatamanga project on the Shire River. Salima was funded by JCM Power alongside the Private Infrastructure Development Group's InfraCo Africa and FMO.

What is the dawn of Darkness in Malawi?

Lilongwe - June 2024 - As the sun sets in most villages in Malawi, the dawn of darkness is also the dawn of anxiety for women, men, children, and particularly school-going children. Only 23% of Malawi's population has access to electricity.

I have PV installation with Sun Spark. It is a local company and the communication from the beginning to the finishing is very good. They gave me good advice and very reasonable price. They installed in time but there was slight delay due to delivery problem for solar panels. Sam and Steve sorted out.
