

Can Mauritania generate low-cost electricity and hydrogen through electrolysis?

Renewable Energy Opportunities for Mauritania finds that the country could deploy these resources at scale to generate low-cost renewable electricity and hydrogen through electrolysis.

How can EITI support Mauritania?

EITI data-driven forecasting can help stakeholders assess the economic implications of the energy transition and provide evidence for policymakers to manage risks and leverage opportunities. Overview of how the EITI can support Mauritania in addressing the economic implications of the energy transition.

Could renewable generation capacity improve Mauritania's mining operations?

The report's analysis finds that expanding renewable generation capacity in Mauritania could improve the sustainability of mining operations, which currently represent close to a quarter of the country's GDP. These operations are energy-intensive, and mines currently rely predominantly on fossil fuels for their electricity supply.

Can Mauritania harness wind energy?

Mauritania also possesses significant potential for harnessing wind energy. The country is blessed with strong and continuous wind most days of the year, with an average wind speed of 7 meters per second. This makes it ideal for both onshore and offshore wind farm development.

Will Mauritania become a world-class liquefied natural gas hub?

Mauritania is set to become a world-class liquefied natural gas (LNG) hub and intends to increase domestic consumption of gas to achieve its net zero emissions goal. It has strong potential to develop solar, wind and hydraulic energy, and is also a leading producer of critical minerals such as zinc, titanium, iron ore, copper and phosphates.

Should Mauritania invest in wind energy?

A major investment in wind energy infrastructure in Mauritania could not only provide a significant source of renewable energy for the country, but also make a significant contribution to global efforts to reduce reliance on fossil fuels and combat climate change.
