

Monolithic power systems mps Croatia

What is monolithic power systems?

Monolithic Power Systems (MPS) is a company that designs, develops, and markets integrated power semiconductor solutions and power delivery architectures. It offers power modules, power converters, isolation, battery management, motor drivers, analog, sensors, AC/DC and DC/DC lightning, and inductors solutions for electronic systems.

How many locations does monolithic power systems have?

It operates in more than 15+locations worldwide. Monolithic Power Systems (MPS) provides power circuits for systems found in cloud computing,telecom infrastructures,automotive,industrial applications and consumer applications. Monolithic Power Systems,Inc. was founded in 1997 by Michael Hsing,who is the current CEO.

Who owns Monolithic Power Systems?

Monolithic Power Systems,Inc. was founded in 1997 by Michael Hsing,who is the current CEO. Prior to the founding of the corporation,Hsing worked as a Senior Silicon Technology Developer at several analog integrated circuit companies. The company then diversified into DC/DC products. In November 2004,Hsing took the company public with an IPO.

What makes MPs a good conductor company?

conductor company headquartered in San Jose, California. Formed in 1997, the company has three core strengths; deep system-level and applications knowledge, strong analog design exp rtise, and an innovative proprietary process technology. These combined advantages enable MPS to deliver highly integrated monolithic produ

Does MPs use SS technology?

ss technology in their facilities for use solely by MPS. MPS has worldwide 70 europeinfo@monolithicpower.comISO9001:2001 Certifi d2013 Monolithic Po

What makes MPs unique?

time-to-market and effectively support its applications. In addition, MPS has developed a portfolio of intellectual property and proprietary wafer fabricat on processes that enhance its products and market share.MPS' proprietary BCD PlusT

Power Management IC (PMIC) Data Center; Power Protection; Power Over Ethernet (PoE) Display Power and Control; USB, Load & Analog Switches; LDO & Voltage Supervisory; MOSFET Drivers; Isolation. Isolated Gate Drivers; Digital Isolators; Digital Isolators with Integrated Power; Isolated DC/DC Converters & Modules; Controllers; New Products; Power ...

MPS offers robust, cost effective LED drivers to address all types of automotive lighting needs, from headlamp to tail lights and everything inside. Most drivers integrate flexible dimming modes and fault detection features, and come in compact packages to help designers achieve exotic new lighting form factors.

Switching Converters & Controllers; Multi Phase Controllers & Intelli-Phase; Power Management IC (PMIC) Data Center; Power Protection; Power Over Ethernet (PoE) ...

MPS offers a growing family of charge pumps. These charging solutions employ an inductorless switched capacitor architecture and are suitable for applications ranging from a 1-cell battery to a 2-cell configuration. The 2-cell configuration can be treated as a virtual 1-cell battery, allowing the existing downstream 1-cell power architecture to be compatible with a 2-cell battery pack.
