Description-Lithium Iron Phosphate Cell-Qualified for RoHS and CCC with high safety-Anti-explosion safety valve-Aluminium shell for better cooling-Ceramic membrane used to enhance safety-High density - 121WH/KK-High charge/discharge rates-Expected to operate for more than 3,000 cycles in optimal working conditionsSpeci

The Rwanda MSP 2020-2024 does not include drug-based prevention. Intermittent preventive treatment for pregnant women was discontinued in 2008 due to evidence of high-level resistance to sulfadoxine-pyrimethamine. Seasonal malaria chemoprevention and other drug-based preventive approaches are not recommended for Rwanda.[1]

GS Yuasa Corporation, the parent company of GS Yuasa Battery Europe, has announced that it will establish a new manufacturing subsidiary company, GS Yuasa Hungary Ltd. It will also construct a new manufacturing plant for lithium-ion batteries in Miskolc, Hungary.
