

MySol solar prices Antarctica

Why should you choose MySol?

More than 9 million people have benefited from increased health and prosperity thanks to our solar energy solutions. With MySol, we offer the widest range of PAYGo solar home systems throughout Africa and our certified and quality assured kits have been proven in the field since 2011.

How many solar panels are there in Antarctica?

The first Australian solar farm in Antarctica was switched on at Casey research station in March 2019. The system of 105 solar panels, mounted on the northern wall of the 'green store', provides 30 kW of renewable energy into the power grid. That's about 10% of the station's total demand.

What is a MySol lighting system?

Our entry-level MySol system meets basic lighting needs, while enabling customers to access useful upgrades. It is a clean, safe and economical alternative to kerosene and is the lowest cost possible without sacrificing on quality. It powers:

Can solar power be used in Antarctica?

Although advancements in technology are now making solar a more viable option for use in the polar regions, there is already a history of solar power supporting scientists in the Arctic and Antarctica. For example, the British Antarctic Survey's Halley VI research station is powered by a combination of solar panels and wind turbines.

Is MySol PAYGO a good investment for small businesses?

Our most powerful MySol PAYGo system for small businesses is a productive investment as it has enough capacity to cool drinks, charge phones and provide TV entertainment. It includes: Essential off-grid services require big capacity, high-quality systems with reliable after-sales service.

How much sunlight does Antarctica get a day?

The Antarctic summer sees 24 hours of sunlight a day. This is a valuable resource as renewable energy. The Casey solar panel array installed. A wind deflector (visible down the length of the array on the left side of the building) minimises the effects of high wind speeds during blizzards. Photo: Doreen McCurdy
