What is Mysol doing in Zambia?

Zambia-based solar energy company, MYSOL, has secured \$7.5 million in funding to accelerate the deployment of off-grid solar electrification projects across the country. The investment will be used to expand MYSOL's operations and provide clean, reliable, and affordable electricity to underserved communities in rural areas of Zambia.

What is Mysol grid Zambia?

The company's unit MySol Grid Zambia is in charge of the construction, ownership, operation and maintenance of the systems. The off-grid installations, which will provide reliable electricity to underserved families and small businesses, are expected to become operational by the end of the year.

Is Zambia a good place to invest in solar energy?

Zambia has abundant solar resources, making it an ideal location for solar energy projects. MYSOL's initiatives will contribute to reducing carbon emissions, foster the development of a green economy, and create employment opportunities in the renewable energy sector.
