

Namibia gerador com placa solar

Will China build Namibia's largest solar power plant?

Namibia's state-owned power utility NamPower on Monday said it had signed a contract with two Chinese firms to start building the country's largest solar power plant.

How is Namibia tackling its energy crisis?

Namibia is tackling these issues with some promising new solar projects-- part of its plans to supply 70% of its energy through renewable sources by 2030. The Namibia Power Corporation (NamPower) is working with Access Aussenkehr Solar One Namibia -- a Namibian independent power producer -- to deliver the Khan solar project.

Is solar the ideal energy solution for Namibia?

With 2,200 kWh/m² of annual solar potential, there is no doubt that solar is the ideal energy solution for Namibia. Solar offers a solution to both the electricity crisis and the lack of clean water, with PV technologies capable of transforming salt water into clean drinking water.

Can I install off-grid solar in Namibia?

SegenSolar has a variety of off-grid solar products that are perfect for installation in Namibia. If you are a homeowner, you can get in touch for more details about our work in Namibia. If you are a solar installer, you can register to our free portal to explore the product range.

Is solar the answer to Namibia's drought?

Agriculture is also under enormous strain, and this is where renewable energy can step in to relieve the burdens caused by the seemingly endless drought. With 2,200 kWh/m² of annual solar potential, there is no doubt that solar is the ideal energy solution for Namibia.
