Who provides emergency medical services in New Zealand?

Emergency medical services in New Zealand (more commonly known as Ambulance) are provided by the Order of St John, except in the Greater Wellington region where Wellington Free Ambulance provides these services.

What is Fire & Emergency New Zealand (FENZ)?

Fire and Emergency New Zealand (FENZ) provides a medical 'First Response' in smaller communities where there is no local Ambulance service. These fire personnel are trained to a higher standard than regular firefighters and are equipped with basic ambulance equipment.

Why do you need a risk reduction team in New Zealand?

That's why we specialise in risk reduction - minimising or eliminating the likelihood and magnitude of loss to your business. We can expose the risks in your business, analyse them, and then put together services and systems to reduce these risks. There is no other team in New Zealand with our depth and breadth of experience in risk reduction.

EMS is a form of muscle stimulation using painless, electrical impulses. For the purpose of strength training and fitness, Body20's ergonomic EMS machines replicate the central nervous system's response to activate electrical impulses for rapid muscle contraction. EMS is 150 times more effective than traditional exercise.
