Who is NZ solar?

NZ Solar was born of a combined desire to take an environmentally friendly approach to generating power and an appreciation of the growing costs of electricity. We want to help you use sustainable solar power to power your home or business, heat your hot water, charge your electric bikes or EV. Reduce your costs.

Who owns photon energy & far north solar farm?

Located in Pukenui in the Far North District of the North Island of New Zealand, the project is owned by Aquila Clean Energy APAC and Far North Solar Farm (FNSF). This project signifies Photon Energy Group's expansion into the New Zealand market, and will draw on experience gained in Australia and throughout Europe.

Where is the New Zealand solar project located?

The project is located in Pukenui in the Far North District of New Zealand. It will be equipped with high-efficiency solar PV modules mounted on a mix of fixed east-west and north facing ground mount.

Who is building the first solar power plant in New Zealand?

"The project marks a significant milestone, as it is our first solar project in New Zealand and represents our expansion in this region. We are delighted to work with Aquila Clean Energy APAC and FNSF to build their first solar power plant in this market," said Georg Hotar, CEO of Photon Energy Group.

How many solar farms are there in the far north?

The Far North already has one solar farm built - the country's largest so far, the Lodestone farm near Kaitiaki was opened earlier this year - and Far North Solar has started constructing another farm at Pukenui.
