What Is a 2000 Watt Solar Generator A 2000-watt solar generator refers to a power unit that has the capacity to deliver up to 2000 watts of electrical power. The "2000 watt" specification indicates the generator's power output capability, which means that the generator can provide a sustained output of 2000 watts of electricity.

Our 2 kW solar systems feature DIY solar kits, which will produce at least 2kW (or 2,000 watts) of power. This translates to approximately 175 to 375 kilowatt-hours (kWh) per month depending on your system choice, location and other factors. ...
