Ha Robin, Ik ben ook actief nieuwsgierig naar alle ontwikkelingen in onze toekomstige energiehuishouding en technische ontwikkelingen. Eerlijk gezegd verwacht ik in ons landje met de zeer goede en dichte infrastructuur niet echt een toekomst voor thuisopslag mits de politiek met belastingen en heffingen ons gaat dwingen.

The Eaton Nissan xStorage Buildings system enables us to manage the power grid, renewable energy supplies and battery storage. We store energy so that it can be used on demand. In data centers power outages are unacceptable - this system overcomes the risks traditionally associated with the intermittent nature of renewable energy.

Let's get more technical. xStorage Home is designed to be the most reliable and affordable energy storage

solution on the market today.xStorage Home combines second-life Nissan Leaf battery modules with Eaton power quality technology and electronics. It's simple to install and use. How it works. When connected to your residential power supply and/or renewable energy ...
