

What is Lundsby Renewable Solutions?

Lundsby Renewable Solutions is more than just a name. It is our promise that - together with you - we will make both ends of green transition meet and contribute to a future, where more will live in a greener way on our blue planet. A future, where we turn natural resources into sustainable energy. And this future...is right now!

Where is Lundsby constructing a biogas plant?

Lundsby is currently constructing a biogas plant for Gasum i Gästene, Sweden, that becomes operational in early 2025. It will be capable of covering the annual energy consumption for heating and electricity for approx. 6,000 households, or the annual consumption for... At full capacity, the biogas plant will be one of the largest plants in Europe.

How can Lundsby help you in the green transition?

If you wish to play an active role in the green transition by using biomass from agriculture, households, industry, etc., we help you make all ends meet and turn the idea into reality. Lundsby has more than 25 years of experience with developing and providing efficient biogas plants.

Who is Lundsby Biogas?

Lundsby is the EPC (Engineering, Procurement and Construction) turnkey supplier of the project. The plant is designed to handle around 400,000 tons of biomass per year, corresponding to 120-gigawatt hours (GWh) worth of liquefied biogas (LBG).

In 2022, the name changed into Lundsby Renewable Solutions, one of the reasons being the intention of exploiting the company's international potential to the maximum. Lundsby has more than 25 years of experience with designing ...

2022 är året då vi bytte navn till Lundsby Renewable Solutions för att kunna realisera bolagets internationella potential i större utsträckning. Lundsby har mer än 25 års erfarenhet av att utveckla och bygga nyckelfärdiga biogasanläggningar. Bolaget har sitt huvudkontor i Løgstrop nära Viborg och ett dotterbolag i Sverige.

The Northern Mariana Islands, officially the Commonwealth of the Northern Mariana Islands (CNMI), [b] [11] is an unincorporated territory and commonwealth of the United States consisting of 14 islands in the northwestern Pacific Ocean. [12] The CNMI includes the 14 northernmost islands in the Mariana Archipelago; the southernmost island, Guam is a U.S. territory.

Lundsby bygger för tillfället en biogasanläggning åt Gasum i Götene, Sverige. Den skall driftsättas i början 2025. Energin som produceras i anläggningen motsvarar förbruket av El och värme för cirka 6000 hushåll årligen, eller ett årligt förbruk för 15000 personbilar...

At full capacity, the biogas plant will be one of the largest plants in Europe. Annually, the biogas plant will handle approximately 930,000 tons of green sustainable feedstock and produce approximately 40,000,000 Nm³ of biomethane.

Din rejse med Lundsby tager udgangspunkt i din idé. Når du ønsker at spille en aktiv rolle i den grønne omstilling ved at udnytte biomasse fra landbrug, husholdninger, industri eller andet, hjælper vi dig med at få enderne til at mødes og gøre idéen til virkelighed.

Lundsby er på Energistyrelsens "positivliste" Det betyder, at vi hos Lundsby Renewable Solutions besidder de måletekniske og biogastekniske kompetencer der kræves. Vi foretager gerne en gennemgang af jeres anlæg for at kortlægge evt. kilder til metantab, samt underbygge og kvalitetssikre anlæggets egenkontrolprogram.
