

# Novel solar Cayman Islands

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

Are solar panels duty-free in Cayman?

However, renewable energy equipment, such as solar panels, are in fact duty-free for residential homeowners. Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery.

What to do in Cayman if there is no sun?

Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery. These rechargeable lithium-ion batteries are wall mounted and can be stored either outside your home or inside your garage.

A court in the Cayman Islands has ordered the winding up of solar panel manufacturer LDK Solar, just over a year after it completed a novel cross-border restructuring process in Cayman, the ...

Also referred to as feed-in-tariff programs, this process involves installing solar panels on your property and selling that power back to the grid. The power generated by the solar panels connects directly into the electric utility feed. In Cayman Islands, this process is called the CORE program. Inverters:

Founded in 2008 GreenTech Solar is the oldest renewable energy company in the Cayman Islands and one of the first renewable energy providers in the Caribbean. A multi-award winning renewable energy design-build firm we are ...

Now, researchers in Switzerland, Singapore, and Korea report in this week's issue of Science that they've used solar cells made from a cheap solar upstart material called a perovskite to do the job. The new devices convert 12.3% of the energy in sunlight to fuel, already better than setups that use silicon, and nearly as good as a setup made ...

The Lake Destiny 5MW Solar Farm is the first utility-scale, commercial solar project in the Cayman Islands. It was completed and commissioned in June 2017 and is located on a 20-acre site in Bodden Town, Grand Cayman. The Farm comprises 21,690 poly-crystalline photovoltaic (solar) modules each with a DC-rated capacity of 305 watts.
