100-panel solar system... The latest innovations in solar power technology. The latest innovations in solar power technology. green energy news / 18th Jul 2024.

Founded in 1996, Olympus Power Pvt. Ltd. had its roots established as a small start up much before. With a legacy and vision of a technical person as a founder, and support of a great team, it quickly rose to being a mainstream player in the back-up power supply market. Today, it is one of the leading manufacturers of industrial and domestic ...

Olympus Power's voltage optimiser stabilises the mains supply at or very near 220 volts, so your appliances get the power they need, not power they can't use. Voltage optimisation works with anything that uses electricity, including three-phase supplies. You'll see the benefits most with appliances and machines that are always running.

Olympus Power Ltd. Beco Energy Solutions were asked to design, construct and install an off-grid power supply to power air quality and noise monitoring stations during the construction of the Hinkley Point nuclear power station in Somerset.
