Why did Omnis Power Invest in Europe?

Due to the energy crisis and the clear need for energy transformation, Omnis Power started investing in the European market. In 2024, the first photovoltaic module factory with a production capacity of 500 MW per year will be opened in Italy. The production lines will be very modern, fully automated, and robotic.

How much is the Solomon Islands infrastructure project worth?

The financing package for the project, worth over US\$200 million, through loans and grants from six institutions, marks the first large-scale infrastructure project for Solomon Islands to be developed as a public-private partnership (PPP).

Does Solomon Islands have a sovereign guarantee for currency convertibility?

A sovereign guarantee for currency convertibility is preferable for investors. According to the Central Bank of Solomon Islands (CBSI), however, no sovereign guarantee is given.

Is the Tina River hydro a good investment for Solomon Islands?

"The Tina River Hydro is an historic project for Solomon Islands," said Hon. Manasseh Sogavare, Prime Minister of Solomon Islands. "It will deliver cheaper power to Solomon Islanders and signals to investors that Solomon Islands is ready for large projects and partnerships."

What projects are being done in Honiara & Guadalcanal Island?

Water supply, water sanitation, PPP (explained in Section 5.3) and waste management. As for the energy sector, five projects are ongoing in rural provinces other than Honiara and Guadalcanal Island: 320 kW in Kirakira, Makir-Ulawa, 290 kW in Lata, Temotu, 140 kW in Malu'u,

Can a 20 MW geothermal plant be built in Guadalcanal Island?

A potential of 20 MW exists at Savo Island, 20 km north of the Guadalcanal Island. However, it lacks feasibility given the costs of constructing the geothermal plant, T/Ls and submarine cables.

OMNIS software is our modern and intuitive software for efficient, traceable, and reliable analyses.
