Orin Energy is owned by a significant proportion of its employees, providing a diverse and stable shareholder base which gives the company a long-term outlook and a considered approach to risk.

Who produces electricity in Romania?

Electric power was provided by the Romanian Electric Power Corporation (CONEL). Energy sources used in electric power generation consisted primarily of nuclear, coal, oil, and liquefied natural gas (LNG). The country has two nuclear reactors, located at Cernavodă, generating about 18-20% of the country's electricity production.

"Orion Energy expects to quickly deploy the \$100m facility to support the modernisation and expansion of the Mohegan mines to maximise production while assuring the highest quality and safest operational practices." The private equity firm provides capital solutions to North American middle-market energy infrastructure businesses.
