

ENGIE's first battery storage system in Slovakia, utilizing Pixii's PowerShaper technology, began operations in January 2024. This BESS is integral to ENGIE's multi-phase project, enhancing grid stability, supporting renewable energy integration, and laying the groundwork for future energy flexibility services in Slovakia.

Value stacking is the art of combining multiple services in a Battery Energy Storage System (BESS) to unlock its full potential. While it is commonly believed that BESS is primarily for reducing energy costs, the true potential is unlocked when the BESS actively participate in the electricity market to support the balance of your local or regional grid.

The PowerBase XL is a high-capacity energy storage system supporting up to 9 PowerShaper XL cabinets, offering 530kW of power and 1.8MWh of storage. Designed for quick deployment and cost efficiency, it leverages value stacking to combine energy savings with revenue-generating services like peak shaving and fast frequency support.

Are you interested in learning more about energy storage for Micro grid & off-grid? Please share your contact details and we will keep you posted. Pixii AS is committed to protecting and respecting your privacy, and we'll only use your personal information to administer your account and to provide the products and services you requested from ...

At the core of all Battery Energy Storage Systems (BESS) from Pixii you find our bi-directional power conversion unit called the PixiiBox. Bi-directionality means that the energy flow can go both ways, from grid to the battery and back to the grid. It connects to a range of energy sources, like solar panels, the grid, generators, and more.

To get a picture of the actual savings on your energy calculations, it is important to analyze your specific energy use, electricity prices and battery performance. A Pixii certified installer will help you make an assessment based on your unique ...

Optimize your energy consumption and reduce cost, with our compact battery energy storage solution with smart home functionality. Pixii Home family. PowerShaper - Residential. Pixii Home. Bulding blocks. PixiiBox. Batteries. Related markets. Residential. Store energy from the sun and become more energy independent.

The PowerShaper XL is an IP55 modular and scalable energy storage system designed for energy-oriented applications. It offers up to 60kW of power and 200kWh of LFP batteries, making it ideal for optimizing energy use through solar self-consumption, peak shaving, and demand charge reduction, saving operational costs in real time. ...

Battery energy storage allows you to boost your capacity when the demand is high. By participating in demand response programs and frequency regulation, your system's flexibility can generate additional revenue streams. This value stack of cost-saving and revenue-generating services ensures a faster ROI, making the battery pay for itself.

1 ?· SOUTH Africa has overtaken Morocco in the race to roll out the continent's first operational gigafactories, with Solar MD's recent launch of a 15,000-square-meter facility ...

Unlock the value of your battery energy storage system and monetize your system's flexibility by offering available capacity to ancillary services like FFR, FCR, standard ramp FCAS services and more. AC back-up. Secure energy independency during power outages or grid restrictions.

The Pixii Home battery energy storage system is quick to install and easy to use, helping you get more out of your solar panels and reduce your dependency on the grid. Pixii Home is a compact, all-in-one solution that combines cost ...

The Pixii Battery Energy Storage System is designed to be easy to install, quick to deploy, and requires minimal maintenance. With its innovative power architecture, all-in-one cabinets, and intuitive web app, the Pixii BESS is the perfect solution for anyone looking for a reliable and efficient energy storage system.

This marks a significant step in providing efficient energy storage solutions for energy-intensive applications. Pixii PowerBase XL - Preconfigured skid, 540kW up to 1,8MWh A practical solution for energy needs. Part of the PowerShaper XL product family, the PowerBase XL offers 530kW power and 1.8MWh storage capacity. It's designed for ...

Smart energy storage for apartment buildings. Get more out of your solar investment and enable fast EV charging with Pixii's smart battery energy storage system, reducing energy cost and making your building greener. The Pixii PowerShaper is fully Integrated, and connects with all new or existing solar panels, allowing you to store excess ...

Pixii's energy storage systems are based on PixiiBox, an advanced power electronics module that transfers energy from the grid to batteries and back to the grid when needed. Pixii's technology stands out in the market for its modularity and scalability. The modular design ensures that the systems are reliable and easy to maintain.

Pixii has delivered Malaysia's first energy storage system for electric vehicle charging stations. This is Pixii's first significant order in Southeast Asia, a region with substantial growth potential. The first station was inaugurated by Malaysia's minister of works, Dato" Sri Alexander Nanta Linggi, as well as Norway's ambassador to ...

Pixii energy storage Morocco

Morocco is aiming for a renewable energy mix of 52% by 2030, and this project is the third in a series of co-located solar and storage projects on the same land each titled Noor Midelt. Masen said the hybridisation was chosen "...in order to optimise the operating parameters of the plants by enabling supply of electricity after sunset while ...

Introducing the Pixii PowerShaper XL - the next evolution in energy storage. Designed for the dynamic needs of today's energy market, the PowerShaperXL family (PowerShaper XL, PowerShaper XL Indoor, PowerBase XL) delivers unparalleled performance and reliability for energy-oriented applications, building on the Pixii modular and scalable ...

Pixii energy storage can operate with most battery modules designed for 48VDC and parallel operation and our systems are compatible with a wide range of battery brands and technologies. LFP batteries typically for more power oriented applications, with the lowest level of cobalt or nickel, and NMC batteries providing the highest level of energy ...

The Pixii PowerShaper is a scalable energy storage solution that adapts to your changing demands. You can customize your system by adding more cabinets, each with a 50kW capacity, to match your load requirements. PixiiHome Energy storage 10kW / 20kWh Pixii home is a compact, all-in-one energy storage, saving you cost and reducing

The PowerShaper Indoor is a modular and scalable energy storage solution designed for indoor applications. It delivers up to 50kW of power and 50kWh of LFP batteries, enabling cost-saving features like time shifting, peak shaving, and demand charge reduction. Pixii's BESS supports a dynamic value stack, maximizing cost savings while ...

However, there is a vast amount of energy storage available in telecom networks around the world that can be used to address local grid challenges. Bi-directional converters and energy storage systems present a valuable opportunity for telecom operators to activate their "lazy assets" and generate new revenue streams from flexibility markets.

Are you interested in learning more about energy storage for Micro grid & off-grid? Please share your contact details and we will keep you posted. Pixii AS is committed to protecting and respecting your privacy, and we'll only use your ...

Flexible grid tied energy storage system 30 kW/72 kWh or 60 kW/144 kWh. The PowerShaper PoleTop from Pixii, is an IP55 complete modular energy storage system. It is fully integrated with and ready to be connected to the grid for applications as grid support, solar self consumption, demand charge reduction, peak shaving, arbitrage, FCAS and FFR ...

ep Assets is the latest in the ep Group stable of energy transition companies and has been set up in response to demand from ep's clients for distributed energy systems. ep Consultancy advises corporates, investors, and

governments on the energy transition and moving to net zero. ep Architects is an architecture practice focused on ...

With growing complexity in the energy market, you need a software configurable battery energy storage system that is flexible and will adapt to your needs, ensuring you always get the most from your investment. The PixiiBox is a bi-directional AC/DC power conversion module, allowing you to seamlessly scale both power conversion and energy ...

Pixii has been recognised as the fastest-growing tech company in Norway, securing the top position in the prestigious Deloitte Technology Fast 50 awards. "Pixii"s proprietary solution combined with an incredibly impressive growth of 10.205 percent from 2019 to 2022 makes them the fastest-growing technology company in Norway and thus the winner of ...

Energy-Storage.news" publisher Solar Media will host the eighth annual Energy Storage Summit EU in London this week on Wednesday 22 and Thursday 23 February 2023. This year it is in a larger venue, bringing together ...

Our focus is the development and provision of compact, modular and scalable energy storage systems in the range from 10 to 1000 kW, to provide the distributed fast-responding and cost-effective flexibility to meet the future ...
