The PowerBox Evolution is always the first choice when a small, robust battery backer system is required: the typical range of applications extends from warbirds to 3D aerobatic models and ...

PowerBox devices can be updated directly using the lead supplied in the set, or using the optional BlueCom Adapter. All the usual settings are available for many products which were formerly set up using PC-Terminal and the USB Interface Adapter. The unit can draw power from a separate battery, or from a PowerBox.

Powerbox battery United Kingdom

The GPS III automatically detects the make of radio control system or PowerBox/iGyro to which it is connected, and sets up correct communication completely automatically. Futaba users can select different slots using PowerBox Terminal. For HoTT and Multiplex systems it is possible to set up various alarms for altitude or distance.

Telemetry data for PowerBox P²BUS, Futaba S.BUS2, Jeti Ex-BUS, Spektrum SRXL2, Multiplex M-Link and Graupner HoTT Transmission of battery, receiver and GPS* data Virtually all features can be controlled from PowerBox and Jeti transmitters Selectable servo frame rate: 10ms, 12ms, 14ms, 16ms, 18ms Servo feedback current suppression

New energy for the best of models - with the new PowerPak range! PowerBox-Systems presents the next generation of the PowerBox Battery series. The PowerPak series boasts a whole array of new and innovative features. Various versions of the PowerPak are available: PRO and ECO, and each as an 8.4 V pack for receiver powe

I had to wire in the power supply cable for the Power Box that I situated in the gap behind the wheel arch in the tub; it took 40 minutes and a half-dozen cable ties to route the Power Box's pre-terminated and fused 5m in-vehicle charging cable. And as everything else - battery monitor, DC-DC charger etc. - is already wired in, that was it!
