Given the average home size in Puerto Rico is approximately 1,800 sq ft., the average cost of solar panels in Puerto Rico is around \$12,021 prior to taking advantage of Puerto Rico's solar incentives. Here's a more ...

Solar panels are only worth it if you have enough money to pay costs upfront. Financing is not worth it. Some would argue that QoL on not having to do maintenance yourself is "worth" the price hikes, but considering that anyone capable of climbing up a roof should be able to do the amount of work those companies will ever do (ie clean up panels every now and then)...

Re: PV System Limits based on Service Panel Size Yea, you are only allowed to backfeed up to 120% of the service rating....  $200 \text{ amp} \times 120\% = 240 \text{ Amp maximum}$ ; So that would limit you to a pair of 40 amp (240 VAC) breakers ...
