How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Does depcom have a solar facility in Puerto Rico?

Depcom Power has commissioned the Ciro One project, a 90 MW (AC) solar facility in Puerto Rico, along with a 51.5 MW battery energy storage system (BESS). The US-based engineering company said it is currently the largest operational solar-plus-storage facility on the island.

Why did Puerto Rico get a power outage?

The announcement comes as the U.S. territory continues to struggle with chronic power outages that have worsened since Hurricane Maria pummeled the island as a powerful Category 4 storm in 2017, razing the electric grid. The outages also are blamed on a lack of maintenance and investment in its electric grid for decades.
