Are France's solar PV auctions dwindling?

Aside from the rooftop solar PV auctions, France also held a ground-mounted tender in March of this year, which awarded nearly 1GW of PV capacity. After awarding over 500MW of capacity in the fifth tender, held in August 2023, the numbers have dwindled in the following auctions, as shown in the chart below.

Are French solar installations bolstered by a new law?

Beyond falling prices, the IEA PVPS report said solar installations were bolstered by the measures introduced in the French government's Law for the Acceleration of Renewable Energies which came into force in 2023. A requirement that competitive tender winners share some of the added value with locals.
