

Recom solar Belize

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Who is RECOM-Tech?

Who installs the Orange Gallery Solar System?

We (The Orange Gallery) were the first official grid-tied system in Belize. Our system was installed by SESB and we have been powering our operations with free energy from the Sun for a few years now. We love it and are happy to recommend SESB!" Which solar system is right for me?

Is RECOM a good employer?

In all of its operations, the company maintains 'best workplace practices' and upholds the highest ethical standards. RECOM is an equal opportunity employer who prides itself for its diverse background and has developed its workforce based solely on skills and expertise.

Solar panels earning a Good rating are a safe and solid choice for your solar energy system under most circumstances. These panels are in the average range for most or all technical criteria analyzed, though may offer a shorter-than-average warranty. Good solar equipment is ideal for solar shoppers seeking a bargain for their solar energy system.

RECOM stands at the forefront of the Solar Energy industry and has established corporate branches worldwide.
