

How much does energy cost in Curacao?

Energy Snapshot Curacao This profile provides a snapshot of the energy landscape of Curacao, an autonomous member of the Kingdom of the Netherlands located on the coast of Venezuela. Curacao's utility rates are approximately \$0.26 per kilowatt-hour (kWh), below the Caribbean regional average of \$0.33/kWh.

What is Curacao's energy policy?

In 2009, Curacao developed an energy policy document, which sets out general guidance and governing principles for further study of energy issues.⁴ It suggests the goal of reducing energy consumption by 40% by 2020 and encourages the investigation of combining wind power with storage to provide 100% of the island's energy needs.

What projects is Aqualetra working on in Curacao?

Aqualetra, with six hundred fifteen employees working in nine departments, is a major player in Curacao. Several of the company's long lasting projects involving green energy, smart meters, and electric cars are outlining, shaping, and potentially developing Curacao's economy and future.

Who is Remy Garaude Verdier?

ERDF: Remy Garaude Verdier, Smart Grids Project Manager within Electricit  de France Distribution France (ERDF) Remy Garaude Verdier is a civil engineer with an MBA from Lausanne IMD (Switzerland). He has worked in a variety of jobs during a 10-year career at EDF Group.

Does Curacao need electricity?

Like many island nations, Curacao is highly dependent on imported fossil fuels (more than 95% of the island's electricity is generated using petroleum-based fuels), leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Why does Curacao face energy security issues?

Curacao faces energy security issues not only due to its reliance on imported fuels but also because of the age of its generation infrastructure. Thirty megawatts (MW) of Aqualetra's generation portfolio is beyond its expected service life and the surplus power from the RdK refinery is subject to frequent outages.

In 1992 he returned to Cura ao, where he was employed in different financial and accounting management position until 1997, by the local utility distribution company ...

The Smart Nation Cura ao Platform is assigned with the phased implementation of a long term vision and integral strategic plan towards the development of Willemstad as a Smart City and Curacao as a Smart Nation.

Remy, compared to figures such as Mark Zuckerberg and Elon Musk, came up with the idea for this box after an initial project to create low-cost televisions failed due to the high price of electronic components. The Smart TV box turns any TV into a smart device, providing access to various channels, apps and streaming services.

Several of the company's long lasting projects involving green energy, smart meters, electric cars, and moving out of the city's center are outlining, shaping, if not developing Curacao's economy and future.

What is Curaçao's position on climate change? According to the Curacao National Commission for UNESCO, in 2022 the Climate Change Committee had declared: "By 2030 Curaçao will be resilient to the adverse impacts of natural hazards and the losses of biodiversity due to climate change and a key player in renewable energy."
