How can Zimbabwe achieve energy security and environmental sustainability?

Zimbabwe could attain energy security, environmental sustainability, and economic diversification through the adoption of renewable energy technology.

How many coal-powered thermal stations are there in Zimbabwe?

There are about four coal-powered thermal stations in the country, namely Munyati Power Station, Harare Power Station, Bulawayo Power Station, and Hwange Power Station, which have operated since the country gained independence approximately 50 years ago (Government of Zimbabwe, 2019).

Does Zimbabwe have a good energy supply?

Zimbabwe's coal supply significantly contributes to its energy provision, accounting for 12.9% of the total energy supply in 2021. Coal is a widely exchanged fossil fuel, and its burning is accountable for many global CO₂ emissions. Figure 2 shows Zimbabwe's position in both African and global ranking across different indicators.
