

Sabson energy Dominican Republic

What is the Sabson group?

The SABSON group is a diversified business group from Hadramout region, Middle East. The group was started more than 100 years ago in Hadramout and now operating in Yemen, Oman, UAE, Saudi Arabia, Jordan, Bahrain, Europe, Eastern Asia and Africa.

What was the Dominican power sector like before the 1990s?

Prior to the 1990s reform, the Dominican power sector was in the hands of the state-owned, vertically-integrated Corporación Dominicana de Electricidad (CDE). The operation of the company was characterized by large energy losses, poor bill collection and deficient operation and maintenance.

Who is Sabson?

SABSON is considered one of the most important trading core of Southern and eastern Provinces, being the pioneers in establishing intermediate Cement Industry in Mukalla & Aden. Addition to the above mentioned, we are one of the biggest leading importers & distributors in Yemen in the following fields.

Why is the electricity sector in the Dominican Republic in crisis?

As previously described, the precarious situation of the electricity sector in the Dominican Republic is not caused primarily by limited generation capacity. Although a reduction of losses may provide a more economic way of resolving the crisis, there are plans for significant new investments in new generation capacity, especially in hydropower.

How is electricity generated in the Dominican Republic?

Electricity generation in the Dominican Republic is dominated by thermal units fired mostly by imported oil or gas (or liquefied natural gas). At the end of 2006, total installed capacity of public utilities was 3,394 MW, of which 86% was fossil fuels and 14% was hydroelectric. The detailed share for the different sources is as follows:

Why is service quality deteriorating in the Dominican Republic?

Service quality in the Dominican Republic has suffered a steady deterioration since the 1980s. Frequent and prolonged blackouts result mainly from financial causes (i.e. high system losses and low bill collection) that are further aggravated by technical factors (i.e. inadequate investments in transmission and distribution).

Dominican Republic U.S. Department of Energy Energy Snapshot Installed Capacity 4.87 GW RE Installed Capacity Share 24.3% Installed Energy Storage 20 MW Peak Demand (2019) 2,506 MW Total Generation (2019) 17,411 GWh Transmission and Distribution Losses 29.4% Electricity Access 100% (Total Population)

Dominican Republic has adopted a law on incentives for the development of renewable energy sources, which aims to increase the diversity of energy sources, reduce dependence on imported fossil fuels and stimulate investment in renewable energy.

The Renewable Energy Incentives Law (57-07) grants several incentives to businesses developing renewable energy technologies. This law was passed in 2007 as part of the Dominican government's efforts to invigorate local energy generation from renewable sources, as well as to promote the production of high-value renewable energy products.

Compañía de Electricidad de San Pedro de Macorés, Av. Abraham Lincoln 295, Edif. Caribeño, piso 3, La Julia, Santo Domingo, República Dominicana 10109.

The national energy commission (CNE) of the Dominican Republic this week granted a definitive concession for a 83.4-MW/101.6-MWp solar project with storage, while the nation's Vice President, Raquel Pena, led the inauguration of a 58.48-MW/64.70-MWp solar farm. ... The installed renewable energy capacity in the Dominican Republic rose to ...

Sabson Energy offers this new approach in the Yemen and Middle East energy market by which we provide large scope of Facility Management (FM) services, supplies and solutions. The FM service offering is covering large spectrum of the customer activities from the most simple and routine jobs to the technical and complicated tasks.

are provided by Sabson Energy solely or in close cooperation with best in class business partners regionally or internationally. Examples of some of the services and supply packages Sabson Energy is able to offer : o Close partnership with GE in the area of Water Treatment and Chemical solutions required during various phases of oil production.
