We have 4 generators which have a total capacity of 5,400kW. Connect Saint Helena Ltd is committed to reducing reliance on diesel power generation by harnessing renewable energy sources. Renewable energy is cheaper to produce and does not harm the environment.

How can connect Saint Helena reduce reliance on diesel power?

Connect Saint Helena Ltd is committed to reducing reliance on diesel power generation by harnessing renewable energy sources. Renewable energy is cheaper to produce and does not harm the environment. We currently have 12 wind driven turbines located at Deadwood Plain. These turbines provide in excess of 20% of the islands electricity.

What is the best solar generator?

Overall, our choice for the top solar generator is the Jackery Portable Power Station Explorer 500, which provides over 500 watt-hours and eight output ports, but is still lightweight enough to bring with you on the go.

Is a solar generator worth it?

A solar generator may be worth it depending on how you use it. The cost of the generator easily pays for itself if you live somewhere that receives ample sunlight and you utilize the energy from the generator as a home backup. Alternatively, if you frequently go on road trips, a solar generator is also worth it.

Are solar generators portable?

Solar generators are available as both portable generators and backup home generators. Most solar generators are portable, lightweight, and have a built-in handle. The best portable solar generators are used to provide power for construction sites, campers, events, or other settings where access to electricity is limited.

The compactness and scalability of containerized solar generators are the key features that encourage the adoption of containerized solar generators.
