

Saint Lucia northvolt drei

What is Northvolt Drei?

Peter Carlsson, Co-Founder and CEO of Northvolt, comments: "We're excited to announce Northvolt Drei - a project which fits well into a promising future cluster of clean technology ventures emerging in northern Germany and advances the wider European transition towards a sustainable society within which Germany plays a crucial role."

What's it like working at Northvolt Drei?

Nadia: Working on construction at Northvolt is truly exhilarating. We're on a multi-billion Euro project at Northvolt Drei, and it's incredibly rewarding. While it's complex, we have an optimized master plan neatly divided into manageable stages. But here's the thing that sets us apart - our team is something else.

Where is the Northvolt Gigafactory located?

The start of construction of battery gigafactory Northvolt Drei in Heide, Germany, marks a major milestone for Northvolt, and the region as a whole.

Will Northvolt Drei produce a lithium-ion battery?

With an annual potential production capacity of 60 GWh, Northvolt Drei will deliver a supply of sustainably produced lithium-ion batteries to the European market, sufficient for some one million electric vehicles.

Who is Northvolt?

Northvolt is a European supplier of sustainable, high-quality battery cells and systems.

Who is funding Northvolt's battery production in Schleswig-Holstein?

Dr Robert Habeck, Federal Minister for Economic Affairs and Climate Protection, has announced funding for Northvolt's planned battery production in Heide, Schleswig-Holstein. The funds would be made available under the Important Projects of Common European Interest (IPCEI) programme, according to dpa on 15.3.2022.

A key goal of Northvolt Drei is to deliver high-performance lithium-ion batteries manufactured with the smallest environmental footprint in continental Europe. If the project is implemented, it will be the largest industrial settlement in Schleswig-Holstein for decades. It's a mega-project, a gigafactory, a game changer for the west coast.

On January 22, 2024, the Northvolt Drei battery factory received the final go-ahead it needed from Norderwörden to build on the Energiewürde. 4:3 - the result of the vote was close, as expected, but the majority was enough. The decision of the siting community not only caused great expectation in the Heide region and Schleswig-Holstein, but ...
