Why should you install solar PV systems in St Lucia?

At the forefront of this revolution is Eco Carib, a leading solar PV business dedicated to harnessing the power of the sun for a sustainable and eco-friendly future. In this blog post, we explore the myriad advantages of installing solar PV systems in St. Lucia with Eco Carib, paving the way for a cleaner and more energy-efficient island paradise.

Does St Lucia have a Solar Power Revolution?

Title: Solar Power Revolution: Advantages of Installing Solar PV in St. Lucia with Eco Carib St. Lucia, bathed in abundant sunlight and surrounded by the beauty of the Caribbean, is experiencing a transformative revolution in the realm of energy.

Where is St Lucia's first solar PV plant located?

On the 11 th April 2018, the St. Lucia Electricity Services Limited (LUCELEC) - the sole electric utility company on the island - completed the commissioning of the island's first utility-scale solar PV plant. The plant is rated at 3 megawatt (MW) and is located in La Tourney, Vieux Fort, just north of the Hewanorra International Airport.

Does St Lucia have a power outage?

St. Lucia, like many tropical regions, occasionally experiences power outages due to storms or other unforeseen circumstances. Solar PV installations, equipped with energy storage solutions such as batteries, provide a reliable source of power even during grid interruptions.

Who is Sol Lucian?
