

SATEC - Solutions And Technology for Energy Control. SATEC's presence in Australia brings together 40 plus years of experience and knowledge for Energy Management Solutions. The culmination of local expertise and SATEC's Global leadership in metering, power quality analysers and software provides a source of knowledge to satisfy customer's ever changing demands for ...

These systems were developed to provide an overall real-time health check of nation-wide transmission grids, predicting and helping to prevent power failures, analyzing those which did take place. Providing the highest performance, and incomparably cost-effective, the PMU PRO is a true game-changer, especially in the field of Distribution ...

A Unique Segment. When it comes to energy management, the public sector is quite unique within the range of energy consumers. Industrial facilities have a clear demand for lowering energy spending which is often the largest production expense, clearly impacting the cost of production and profitability.

SATEC is a developer and manufacturer of specialty solutions [buzzword] for power measurement and power quality monitoring. The company's range of products includes traditional 3-phase power meters for real-time power measurement and data-logging, revenue meters (electricity meters), power quality analyzers and a software suite for energy management and billing.

SATEC was one of the first companies to pioneer this field, introducing one of the very first digital power meters, and ever since SATEC has made its priority to lead and innovate. For over 35 years now, prominent global utilities and industrial leaders have made SATEC their go-to choice, for both off-the-shelf and bespoke solutions, for ...

SATEC is a developer and manufacturer of specialty solutions for power metering (AC and DC) and power quality monitoring. For over 30 years SATEC has been providing advanced power telemetry solutions for utility substations (fault recording, WAMS etc.) and energy efficiency optimization for the industrial and commercial market (hardware & software).

SATEC BFM-II is the second generation of the Branch Feeder Monitor(TM), providing energy management for multi-point power solutions. Ideal for both new and retrofit projects, the BFM-II automatically provides metering, demand and energy readings, logging and ...

Lorem ipsum. Our software packages complete our product line, offering a total solution for your power system. SATEC's on-line service, eXpertpower, collects, archives and analyses energy and power quality data. eXpertpower allows multiple users to view data, create automated billing, produce sophisticated reports and implement energy.

Nosotros. SATEC es el líder mundial en investigación, desarrollo y fabricación de soluciones de administración de la energía. Con tres décadas de conocimiento, los equipos tienen la experiencia tecnológica para ofrecer soluciones flexibles para aplicaciones de clientes en México.

El CIF de SATEC POWERFULL SOLUTIONS SL es B83833889. LA COMPRA-VENTA Y COMERCIALIZACION DE EQUIPOS INFORMATICOS Y APARATOS ELECTRICOS Y ELECTRONICOS DE MEDIDA Y OTROS USOS INDUSTRIALES es el propósito final de la empresa SATEC POWERFULL SOLUTIONS SL, dada de alta el día 11/12/2003. Su CNAE ...

RGM180-G3. Featuring all the G1 characteristics, the RGM180-G3 is used as a remote monitor for reading and controlling up to 32 units of any compatible SATEC devices (see Highlights tab) over RS-485, or up to 36 SATEC devices over 10/100 Base-T Ethernet.. This screen model must be Powered over Ethernet (PoE) or via an external power supply (supplied with unit).

Cost-effective: saves drastically on installation costs and space occupied by dozens of legacy meters. Multi-circuit: multi-load metering. up to 12 three-phase loads; up to 34 single-phase loads; various combinations of the two; Revenue Meter.. Class 0.5/0.5S accuracy per ANSI C12.20 / ...

Power: True RMS volts, amps, power, power factor, neutral current, angles and unbalance for voltage and current, frequency, symmetrical components and many more; Event and parameter data-logging; Sampling frequency: up to 1024* samples per cycle; KYZ or KY output and LED indication for calibration and test (via optional display)

Discover SATEC's Commercial, an energy management solutions for optimal performance and sustainability. Dive into how Commercial can transform your energy management. ... such as demand, power factor and more. Proper energy management guarantees that body corporate does not lose on the energy supplied with its premises but rather even gains at ...

SATEC's Energy Saving solutions help reduce costs and enhance efficiency. Discover tools for energy monitoring, maintenance, and More! ... This is where SATEC offers a full monitoring solution, enabling the
