Who is shoreline energy?

About SHORELINE. Shoreline Energy International (SEI) is a leading energy and infrastructure company. Founded in 1997 with offices around the globe our focal operations expand across Sub-Saharan Africa.

What is shoreline's role in achieving resource-and-cost-efficient wind energy solutions?

Shoreline stands on the frontlines in breaking down barriers to achieving resource-and-cost efficient wind energy solutions.

Why should you use shoreline wind's advanced simulation solution?

By using Shoreline Wind's advanced simulation solution, we have been able to provide fast and precise insights on cost estimations, weather downtime assessments, installation time, which has greatly supported our research for a validated new installation concept.

The water depth leading up to a shoreline property is an important feature structuring the size of wave that encounters the shoreline. Understanding the bathymetry (or underwater topography) leading up to your project area can ...
