

Does Sierra Leone need a reliable energy supply?

The nationwide electrification rate was recorded at 5% (estimated at 12% in urban areas and 2% in rural areas) in 2018 with roughly 150,000 connected customers. The country's energy needs are hugely under served, and the lack of a reliable energy supply is the primary obstacle to Sierra Leone's development.

How much electricity does Sierra Leone have?

As of March 2019, the installed electricity generation capacity in Sierra Leone was 113 MW. This is made up of 75 MW of hydropower, 4 MW of solar and 34 MW of bioenergy. The nationwide electrification rate was recorded at 5% (estimated at 12% in urban areas and 2% in rural areas) in 2018 with roughly 150,000 connected customers.

Could wind energy be a viable option in Sierra Leone?

There is some indication that wind speeds of 12 m/s are possible in parts of the country, implying that wind energy could be a viable option in selected locations. Currently, Sierra Leone has one wind energy system of 5 kW located in the Bonthe District, along the southern coastline.

What is the largest mini grid project in Sierra Leone?

Currently the largest active mini grid project in Sierra Leone. A \$34 million programme funded by DFID and implemented by UNOPS in partnership with the Ministry of Energy of Sierra Leone. The project aims to develop off-grid electrification projects to rural communities in the country.

Does Sierra Leone need rural electrification?

There is currently no entity in Sierra Leone with a specific mandate to drive rural electrification in the country. This is being run by various departments in the Ministry of Energy and SLEWRC. The 2018-2030 plan, however, has set plans for the formation of a Rural and Peri-Urban Electrification Authority.

Is Sierra Leone a member of ECOWAS?

Sierra Leone is a member of the African Union, the United Nations, the Commonwealth of Nations and Economic Community of West African States (ECOWAS). Agriculture will continue to drive the non-iron ore GDP growth. This will be spurred by increased investments and expansion in the crops, livestock and fisheries sub-sectors.
