

Singapore royal power energy

Will Keppel energy import hydropower from Cambodia's royal group Power Company?

The Energy Market Authority (EMA) said on Thursday that electricity retailer Keppel Energy has received conditional approval to import hydropower, solar and potentially wind power from Cambodia's Royal Group Power Company via new subsea cables that would transmit the electricity over more than 1,000km.

How will Cambodia's new electricity supply work in Singapore?

The proposal will see the imported electricity harnessing solar energy, hydropower, and potentially wind power, supported by battery energy storage systems or pumped storage hydropower, said EMA in a media release. It will be transmitted from Cambodia to Singapore via new subsea cables of more than 1,000km.

Can Ke import a GW of electricity from Cambodia to Singapore?

The EMA - a statutory board under the Ministry of Trade and Industry - affirmed in a statement that it "has granted Conditional Approval to [KE] to import one gigawatt [GW] of electricity from Cambodia into Singapore.

Can Singapore export solar energy?

The EMA said it has received more than 20 proposals from six countries - Australia, Cambodia, Indonesia, Laos, Malaysia and Thailand - to export solar, wind, and hydropower and geothermal energy to Singapore. It is still asking for proposals for low-carbon electricity imports, and interested parties can submit their proposals before Dec 29.
