Economic benefits of PHS and Li-ion storage. Study cases: Austria and Bosnia and Herzegovina Zejneba Topalović \*, Reinhard Haas, Marlene Sayer Vienna University of Technology, Institute of Energy Systems and Electrical Drives, Energy Economics Group, Guvhausstrasse 25-29, 1040 Vienna, Austria  
**HIGHLIGHTS**

The urgency to invest in battery storage to balance the grid and integrate variable renewable energy (VRE) is not as acute in other countries like Japan and the Philippines which are undergoing a relative boom in BESS installations. ... HyperStrong, a global leader in providing energy storage solutions, launched its smart, reliable and ...

Bosnia and Herzegovina is a self-sufficient, net exporter of electricity. However, its energy sector relies mostly on fossil fuels, in addition to hydro and a negligible level of renewables. Bosnia and Herzegovina is well endowed with renewable energy resource potential; however, the sector is still in its initial stage of development.

This trend is likely to continue; according to GlobalData, the market for battery energy storage is forecasted to more than double from \$6.91bn currently to \$14.89bn by 2027. The outlook. As we look towards the promise of the clean energy revolution, battery energy storage will play an essential role.

Search all the announced and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Bosnia and Herzegovina with our comprehensive online database.
