

# Smartflower solar price europe Honduras

How much does a smartflower solar panel cost?

Now, let's talk about the numbers. How much does the SmartFlower cost? Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000 with the average cost to install at \$27,000. There are two models that you can choose from, and this is why the price can vary.

What is a smartflower Solar Flower?

The Smartflower solar flower is an all-in-one ground-mounted solar system with a tracker that follows the sun. However, it doesn't look like the solar panels you might be used to. Learn all about the product, how it compares to other solar options, and whether you should consider one for your home in our Smartflower solar review.

Can a smartflower solar system save you money?

While you can get more solar installed for less with a traditional photovoltaic system, the Smartflower can still save you a ton of money over the next 25 years. With 5,510 kWh of electricity produced per year in Los Angeles, the Solarflower rivals the output of a 4 kW rooftop solar panel system.

What is a smartflower plus Solar System?

The Smartflower Plus is the same system with a solar-powered integrated battery and inverter that can be used to run either a hybrid system or a complete standalone off-grid solar system.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

How is smartflower different from other solar panels?

A quick glance at Smartflower makes it clear how different this solar sculpture is from the solar panel systems we're used to seeing on rooftops or ground-mounted arrays. Aside from its looks, its dual-axis tracking capability allows Smartflower to generate up to 40% more energy than typical fixed solar panels, Gordon said.

The SmartFlower cost is currently \$16,900 for a single unit, but the Smartflower costs \$22,000 for a complete system with batteries included. Read on for a price comparison of the Smartflower vs rooftop solar panels and be sure to visit our other post to dig even deeper into current solar panel cost.

Solar is key to our renewable-energy future, and the sculptural and intelligent SmartFlower solar flower is the perfect home or business platform. Skip to content 833-SMRTFLR (833-767 ...
