

Solar batteries panels Jersey

Could a solar farm boost Jersey's energy security?

Bosses said the plans for the 2.7 hectare site, meant electricity would be returned to the grid in a process which would "increase Jersey's energy security". A solar farm in Jersey could power 17% of the parish's homes if planning is approved, electricity bosses say.

Why is solar important in Jersey?

Solar is a vital component of modern homes in Jersey, contributing to the state's renewable energy and energy management. For those focused on the bottom line, solar serves as a safeguard against rising grid electricity costs.

How many kWh will Jersey's solar array generate?

The 1,311 square metres, 255kWp array is expected to generate over 240,000 units a year - enough to power 33 Jersey homes using an average 7,300 units (kWhs) a year. It's the third solar array to feed directly on to the grid.

Could a solar farm power 17% of St Peter's homes?

A solar farm in Jersey could power 17% of the parish's homes if planning is approved, electricity bosses say. Jersey Electricity (JE) is inviting St Peter parishioners to attend a consultation for a ground-based solar installation at Mont Fondon.

Will a ground-based solar installation at Mont Fondon increase Jersey's energy security?

Jersey Electricity (JE) is inviting St Peter parishioners to attend a consultation for a ground-based solar installation at Mont Fondon. Bosses said the plans for the 2.7 hectare site, meant electricity would be returned to the grid in a process which would "increase Jersey's energy security".
