

How much does a solar panel cost in Switzerland?

For a standard villa with a panel surface area of 50 m<sup>2</sup> and a 10 kWh battery, the average price is around CHF 22,000, after deduction of subsidies and tax allowances. How long does it take to recoup your initial investment in a solar system? What are the advantages of a battery-powered solar system for my home in Switzerland?

Is Volta Swiss a good solar company?

Well done to the Volta Swiss teams. Serious and diligent company. The advice provided by the staff is very professional. "Always listening to the customer". A highly qualified team that always listens to the customer. I highly recommend Volta Swiss for your future solar installations. Opt for a cost-effective, long-lasting solar system.

Should you invest in a solar system?

The investment costs can also be deducted from taxes in most cantons. Solar power from your own roof is cheaper than power from the public grid. You can permanently reduce your electricity costs by 30%. With your own solar system, you become self-sufficient and are less affected when electricity price increases.

Spec: Item Type: MPPT Solar Controller Material: PC Rated Discharge Current: 15A System Voltage: 12V, 24V (Self Adaption) Maximum PV Voltage (12V, 24V): 18V Solar Panel for 12V Battery, 36V Solar Panel for 24V Battery USB Output: 5V 2A Maximum Connection: Supports Package List: 1 x MPPT Solar Controller 1 x Manual

One sample calculation from the recently published study by ETH and the University of Bern on the profitability of solar energy systems: In R&#252;mhang in the canton of Zurich, a 12 kW system on a single-family home will generate a return of 6% over 30 years. In neighboring Kloten, a similar system will return a slight loss.
