

Solar distribution companies Georgia

How many solar companies are there in Georgia?

According to data from the Solar Energy Industries Association (SEIA), Georgia is home to more than 85 solar providers. Each of these companies brings something unique to the table, whether that's the best solar panel brands, below-average pricing or outstanding customer service.

Who are the best solar companies in Georgia?

Among the shining stars in Georgia's solar landscape, Tesla and Palmetto Solar emerged as some of the best solar companies, promising to illuminate the path toward a greener, more sustainable home. The best solar companies in Georgia are Tesla and Palmetto Solar based on our research of customer satisfaction and service quality.

How do I choose a solar company in Georgia?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. In Georgia, a solar installer must be associated with a licensed electrical contractor.

How much does a solar system cost in Georgia?

Top solar installers in Georgia can cost around \$2.77 per watt (before incentives) or around \$16,620 for a 6kW solar system. 63% of Southeast U.S. residents, when asked in the Forbes solar survey, said they'd be very likely or somewhat likely to recommend solar installation based on their positive experience.

Are solar batteries a good investment in Georgia?

One of the most important and helpful incentives for solar customers across the country is net energy metering, which credits you for excess energy production and reduces your future utility bills accordingly. Georgia doesn't mandate net energy metering, but solar batteries can help mimic the program.

Is Georgia a good state for solar energy?

Georgia, boasting the third-highest installed solar capacity in the Southeast at 3,769 megawatts, is at the forefront of solar adoption, reflecting the state's growing commitment to renewable energy. The research underscores a positive sentiment toward solar energy among Georgians:
