

As stated by Soleos Energy CFO Jason Temasfieldt, the company seeks to implement up to 1 GW of solar projects in the country. According to local media reports quoting DR Congo's minister of foreign trade, Julien Paluku Kahongya, the current project is the pilot phase of a 500-MW scheme.

The other Turkish partner, CW Enerji, is a solar panel manufacturer based in Antalya (it says it has installed a total 1.3GW capacity and has a distribution agreement to sell solar inverters of ABB in Turkey). Neither ...

Goma-based renewable energy developer Nuru closed a funding round in early July, the proceeds of which will be used to start construction work on three solar hybrid metro-grids in Goma, Kindu, and Bunia.

Africa's second largest country, and one of its poorest, the Democratic Republic of Congo (not to be confused with the neighboring Republic of Congo) has finally placed a big bet on renewable energy. The government there has finally gone ...

Melci Holdings" Director, Prof. Madiba, emphasized the project's impact on the DRC's energy landscape: "This project represents a turning point in the energy landscape of the DRC. By harnessing solar energy at this scale, we will be able to meet the critical energy demands of the region and pave the way for sustainable growth."

Scheduled for completion by late-2026, the project will help secure reliable energy for the DRC under a 25-year power purchase agreement with state utility Soci t  Nationale d' lectricit . Soleos Energy aims to ...

Building synergies to provide sustainable and stable energy supply in DR Congo, the clean energy giant and the Ministry of Energy and Hydraulic Resources of the Democratic Republic of Congo, have signed a ...

Soleos Energy, an Indian renewable energy developer, is partnering with Melci, a Democratic Republic of Congo (DRC) electrical engineering company, to build a 200 MW solar photovoltaic (PV) power plant ...

Investors buy stake in ground-breaking solar company Nuru SASU in DRC. London, 3 March 2023: Nuru SASU (Nuru), the company behind Democratic Republic of the Congo (DRC)'s first solar PV metrogrid, is on track to build 13.7MWp of isolated solar-hybrid grids by mid-2024 after securing an initial USD1.5 million from investors in a convertible note round ahead of the close ...

India's Soleos Energy, in partnership with Melci Holdings, has started building a 200 MW solar park in the Democratic Republic of the Congo (DRC). The project is set for commissioning by late 2026.

Solar energy energy DR Congo

The governments of the Democratic Republic of Congo (DRC) and Egypt have just signed agreements for the construction of the Tshipuka solar photovoltaic power plant, as well as a drinking water plant on the Lubi river in the Sankuru province.
