

Solar energy for residential homes Armenia

Does Armenia have solar energy?

Armenia has significant solar energy potential: average annual solar energy flow per square metre of horizontal surface is 1 720 kWh (the European average is 1 000 kWh), and one-quarter of the country's territory is endowed with solar energy resources of 1 850 kWh/m² per year. Solar thermal energy is therefore developing rapidly in Armenia.

Is Solara a green energy company in Armenia?

THIS IS NOW! Solar photovoltaic installation company SOLARA has adopted a strategy to carry out activities in the field of the green economy in Armenia and promote its development. Why Choose Solara? There is a great potential for solar energy in Armenia.

Who makes solar panels in Armenia?

Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Profpanel. In Solaron Company merged a team of highly qualified professionals with many years of experience in the business organization from scratch.

What is Armenia's largest solar power plant?

The 200-megawatt plant named Ayg-1 will be Armenia's largest solar power plant with a capacity of around half of Armenia's main energy generator, the Metsamor nuclear power plant. The plant is planned to be built in the Aragatsotn province in an area of over 500 hectares located in Talin, Dashtadem, Katnaghbyur and Yeghnik communities.

Where is Solaron available in Armenia?

Solaron's services are available throughout all regions of Armenia. Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Profpanel.

How many projects has Solaron completed in Armenia?

Over the course of 8 years, Solaron has successfully launched and completed more than 1400 projects both in Armenia and abroad. Innovation is at the core of Solaron's approach, and we actively integrate innovative technologies and solutions into projects. Solaron's services are available throughout all regions of Armenia.

Solar energy at home is an efficient solution for low-income families. Given the high solar potential of Armenia and the usage of solar thermal systems, successful implementation of our project will significantly compensate for the constantly rising energy prices and improve social well-being of the population in general.

Solar energy for residential homes Armenia

Solara is a full service provider of solar energy solutions to meet the needs of any customer for a variety of market segments. The company is focused on high-tech production of high-efficiency solar modules using one of the most modern ...

Armenia has very high potential for solar energy (average annual solar energy output per 1 m² of the horizontal surface is 1720 kWh/m² and one-fourth of the country has 1850 kWh/m² of solar energy per year). Industrial PV stations "Masrik 1" (55 MW) PV station International Tender

Solar power is booming. Over the past decade, solar energy capacity in the U.S. has grown by an average of 25% each year, hitting a new high in 2024, according to the Solar Energy Industries Association. Most residential solar systems are designed to supplement your home's energy needs.

" Armenia has a significant solar energy potential. The average annual amount of solar energy flow per square meter of horizontal surface is about 1720 kWh (the average European is 1000 kWh)." Factors that benefit Armenia's solar energy sector developments are: Climate conditions

However, the amount of power generated by a solar energy system at a particular site depends on how much of the sun's energy reaches it, and the size of the system itself. Several mapping ...

A residential solar solution quotation from Specialized Solar Systems includes: ... At Specialized Solar Systems, we understand that choosing the right solar energy system for your home can be overwhelming. That's why we want to provide you with some important and useful facts to help make your decision easier. We believe that by educating ...
