The results show that there is great potential for standalone solar PV systems for commercial application in Port Harcourt, Nigeria. Thus, supermarkets in Port Harcourt, Nigeria, are recommended to install standalone PV systems, specifically for stores with significant energy consumption, rather than relying entirely on diesel generators.

If your average gas generator costs about \$1000 a similar output solar generator is going to cost you somewhere close to \$2000 - and maybe even more. Solar generators have lower operating costs in the long haul to offset that initial expense, but it still a pretty big hit to your bank account right away.
