

# Solar panel package deals Libya

What is the Libya solar Pact?

The pact was sealed during the Libya Energy & Economy Summit, an international energy and economic conference being held in Tripoli. The proposed solar farms will be feeding electricity to the national power grid and will power industrial facilities at the Waha oil field. Details about the specific projects were not available.

What is total energies doing in Libya?

Total Energies is also working with Libya's state National Oil Corporation (NOC) on several renewable energy projects including solar power supply systems to hospitals and education facilities in the oil producing regions. Libya and Total Energies sign preliminary agreement to establish 500 MW solar power project ([libyaherald.com](http://libyaherald.com))

Is France taking part in Libya's solar project?

The French group, which is taking part in several oil production projects in Libya, has signed a Memorandum of Understanding (MoU) for the solar initiative with power producer General Electricity Company of Libya. The pact was sealed during the Libya Energy & Economy Summit, an international energy and economic conference being held in Tripoli.

How much solar power does Libya have?

In terms of solar power potential, Libya boasts approximately 3,200 annual brightness hours and an average radiation of 6 KWh per m<sup>2</sup> per day. For reference, each km<sup>2</sup> of desert in the country receives solar energy equivalent to 1.5 million barrels of crude oil annually.

Will GECOL build a solar plant in Libya?

A recent MOU between UAE-based Alpha Dhabi Holding and GECOL aims to construct two additional solar plants in Libya, with a target capacity of 2 GW. Notably, Libya's vision for its renewable energy sector transcends its borders and aims to capitalize on its strategic position as the North African gateway to Europe.

Will Libya generate 10 percent of its energy by 2025?

Libya aims to generate 10% of its power from renewable energy by 2025, following the construction of several large-scale solar photovoltaic plants currently underway.
