

Solar panels in the Guam

Without solar panels, we would be paying approximately \$600-700 per month for our power bill. With solar panels, we produce enough energy to earn a credit from the power company. At the end of 2019, Guam Power Authority actually cut us a check in the amount of \$574.34 for all the extra power we had fed back to them during the year.

Generation Renewable designs and builds advanced renewable energy systems including solar and solar storage solutions for residential, commercial, government and military markets. For over ten years, Generation Renewable ...

GoSolar Guam is committed to providing green energy solutions to the people of Guam and Micronesia. We design and build high-efficiency solar panel systems that will lower your carbon foot print, increase the value of your home or business, and save you money.

The solar energy system provides power to your home during the day and charges the batteries. Excess energy is exported to the utility grid. The utility will credit you for every kilowatt-hour exported to the grid. Why would I want battery storage with my solar energy system? Battery storage is the missing piece to the solar energy puzzle.

Choose Solar Spot for your solar energy needs on Guam and take control of your energy future. Unlike other solar providers that lock you into long-term Power Purchase Agreements (PPAs) or leave you paying the power company in perpetuity, Solar Spot believes in empowering you with the outright ownership of your solar system.

Hagåtña, Guam - The Leon Guerrero-Tenorio Administration proudly announces the recent award of \$62.4 million under the U.S. Environmental Protection Agency's (EPA) Solar for All program.
