

# Solar portable power station Kosovo

What is New Kosovo Power Station?

New Kosovo power station, also known as Kosovo C or Kosova e Re power station, is a proposed 500-megawatt (MW) coal-fired power station in Kosovo. The map below shows Pristina, the approximate location where the plant would be built. Loading map... The New Kosovo power plant is part of the government's plans to reform Kosovo's energy sector.

What are the power plants in Kosovo?

The greatest part of generation capacities of Kosovo are the two power plants: Kosova A and Kosova B. The capacities of the two power plants are lower than the installation parameters level, because of the outdated system and lack of maintenance during the last decade of the 20th century.

Could solar power be used in Kosovo?

Different sources estimate different potential for solar and wind in Kosovo. These could be combined with Albania's existing hydropower to make a much more flexible electricity system, and in December 2019, the two countries agreed to set up a common electricity market.
