

# Solar solution in Botswana

Why should you choose solar World Botswana?

We offer top-notch solar solutions that are designed to perform reliably in all weather conditions, ensuring uninterrupted performance. Solar World Botswana is your ultimate destination for comprehensive solar energy solutions. Our mission at Solar World is to deliver dependable solar PV power plants that cater to all your energy requirements.

What are the applications of solar energy in Botswana?

**SOLAR PHOTOVOLTAIC APPLICATIONS** Photovoltaic conversion of solar energy (PV) in Botswana is used for almost all common applications. Role of solar energy in development in Botswana 185 Fig. 4. A brick type solar still developed at RIIC, Kanye, which include lighting, water pumping, refrigeration, communication and fence electrification. 5.1.

Does Botswana have solar energy?

Botswana has abundant solar energy resources, receiving over 3,200 hours of sunshine per year with an average insolation on a horizontal surface of 21MJ/m<sup>2</sup>, one of the highest rates of insolation in the world. It is essential to take advantage of the abundance of this resource.

Does Solar World Botswana have a water system?

Solar World Botswana successfully revitalized and rejuvenated the water system at a resort farm located in Ranaka.

Which solar still is best suited for Botswana?

After years of research and development activities, the RIIC findings concluded that the Mexican and brick solar stills are the best suited for application in Botswana. The Mexican still consists of a moulded fibreglass basin of 1.6 m<sup>2</sup> base area to hold saline water and has gutters on two sides to collect the distillate.

Who are solarbw & widowbird solar solutions?

SolarBW and its affiliate, Widowbird Solar Solutions based in Botswana and South Africa are family-owned companies with a 20 year track record, specializing in the photovoltaic sector.
